------------------------------	---------------------------------

What the apartment rate covers The selected apartment, utilities, meals, housekeeping, laundry, activities, and secure memory-care community.	How care charges are determined Our assessment prices the specific services each resident needs rather than placing everyone into a tiered package.
---	---

What Families Can Expect

Care planning together Each resident and family helps shape a plan around goals, preferences, and assessed needs.	Charges tied to services Care charges change when the services a resident needs and receives change.
A clear explanation We explain what changed, why it changed, and how it affects the monthly charge.	Ongoing review The plan can be updated as health, mobility, cognition, behavior, or safety needs change.

The assessment reviews health conditions, bathing and hygiene, dressing, continence, mobility and fall risk, nutrition, medication and clinical support, cognition, behavioral expression, and wandering or elopement risk.

Apartment rates vary by unit. Care charges are individualized and may fall outside the typical range. Each resident in a shared suite has an individual care plan and care charge. Other applicable fees may apply.

MEMORY CARE BUILT AROUND THE PERSON

Care Designed Around the Person

Thrive provides a secure, supportive setting where residents can live with dignity, connection, and purpose. Care plans reflect each resident's history, preferences, abilities, and changing needs.

● Supporting independence We encourage residents to do more of what they can, every day.	● Familiar routines Predictable routines create comfort, build confidence, and reduce stress.	● Meaningful daily moments Shared stories, music, movement, and connection bring purpose to each day.
● Personalized care plans Plans evolve with each resident's needs, preferences, strengths, and abilities.	● Nursing and medication oversight Licensed nurses provide on-site medication management and health oversight.	● Dementia-trained support Caregivers are available around the clock for reassurance, redirection, and assistance.
● Purposeful activities Activities support memory, movement, enjoyment, and meaningful connection.	● Family communication Monthly Thrive reports and ongoing updates keep families informed and connected.	● Wellness and safety We monitor hydration, nutrition, comfort, safety, and patterns behind behavioral expression.

How Thrive Stays Personal

Thrive is personalized to each resident and continues to evolve over time.

- Honors the resident's story and preferences
- Adapts as needs and abilities change
- Builds on strengths and supports independence
- Promotes engagement, comfort, and well-being
