MEMORY CARE PRICING

Thrive Memory Care at Home Again Waunakee

Waunakee Memory Care serves a maximum of 12 residents. This small setting allows our team to provide more personalized care, maintain a very high staff-to-resident ratio, and dedicate a full-time nurse to those 12 residents.

Apartment and Care Pricing

APARTMENT RATE		INDIVIDUALIZED CARE		TYPICAL MONTHLY TOTAL
$6,000 per month	+	**$1,500 to $5,000 typical**	=	**$7,500 to $11,000**

Currently, the average monthly cost for residents is about $8,500.

ONE-TIME ENTRANCE FEE	**$2,000 due at admission**

What the apartment rate covers

The selected apartment, utilities, meals, housekeeping, laundry, activities, and secure memory-care community.

How care charges are determined

Our assessment prices the specific services a resident needs rather than placing every resident into a tiered package.

What Families Can Expect

Care planning together

Residents, families, and our clinical team build the plan around goals, preferences, and assessed needs.

Charges tied to services

Care charges change when the services a resident needs and receives change.

A clear explanation

We explain what changed, why it changed, and how it affects the monthly charge.

Ongoing review

The plan can be updated as health, mobility, cognition, behavior, or safety needs change.

The assessment reviews health conditions, bathing and hygiene, dressing, continence, mobility and fall risk, nutrition, medication and clinical support, cognition, behavioral expression, and wandering or elopement risk.

Care charges are individualized and can fall outside the typical range in unique circumstances. Other applicable fees may apply. Ask our team for a personalized estimate.

Thrive

MEMORY CARE BUILT AROUND THE PERSON

Care Designed Around the Person

Thrive provides a secure, supportive setting where residents can live with dignity, connection, and purpose. Care plans reflect each resident's history, preferences, abilities, and changing needs.

Supporting independence

We encourage residents to do more of what they can, every day.

Familiar routines

Predictable routines create comfort, build confidence, and reduce stress.

Meaningful daily moments

Shared stories, music, movement, and connection bring purpose to each day.

Personalized care plans

Plans evolve with each resident's needs, preferences, strengths, and abilities.

Nursing and medication oversight

Licensed nurses provide on-site medication management and health oversight.

Dementia-trained support

Caregivers are available around the clock for reassurance, redirection, and assistance.

Purposeful activities

Activities support memory, movement, enjoyment, and meaningful connection.

Family communication

Monthly Thrive reports and ongoing updates keep families informed and connected.

Wellness and safety

We monitor hydration, nutrition, comfort, safety, and patterns behind behavioral expression.

How Thrive Stays Personal

Thrive is personalized to each resident and continues to evolve over time.

- Honors the resident's story and preferences
- Adapts as needs and abilities change
- Builds on strengths and supports independence
- Promotes engagement, comfort, and well-being

Private Studio Living

Representative studio floor plan

A few similar studio plans are available. Studios range from approximately 280 to 360 square feet.
